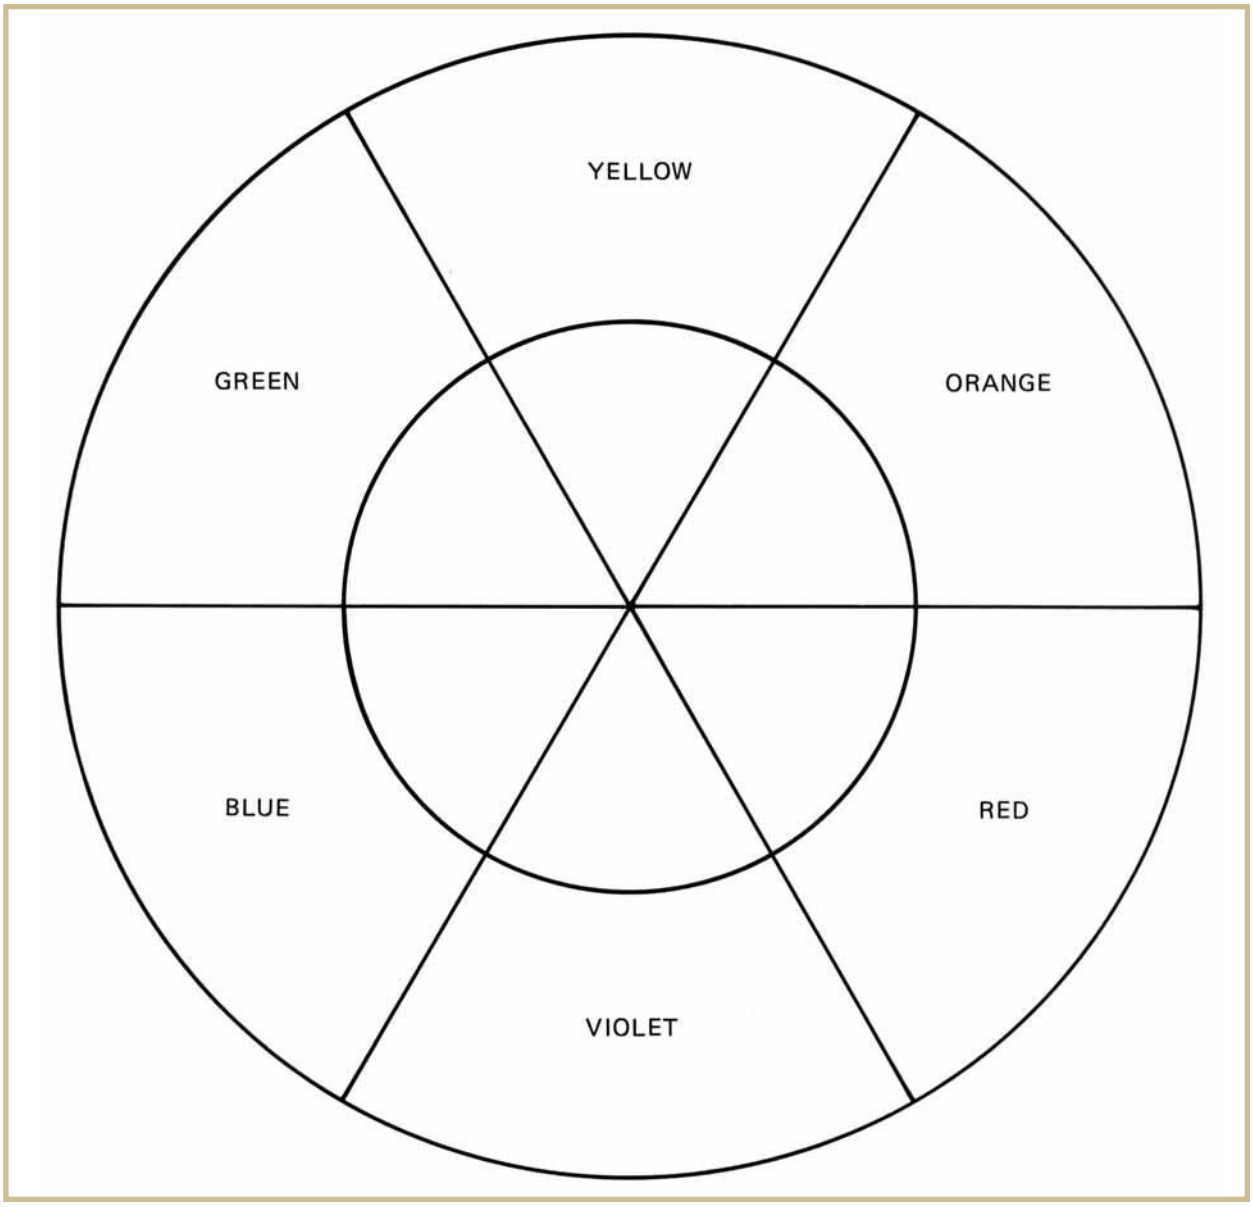
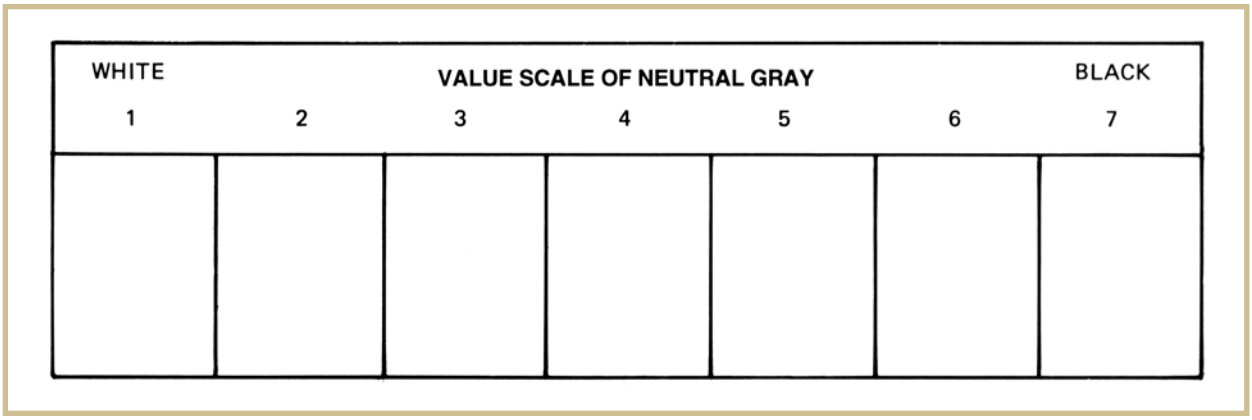
Watercolor Exercises

The illustrations in this supplement are reproductions of the figures from the color experiments in *The Principles of Color*. To complete these experiments, print the forms and make as many copies as you wish.

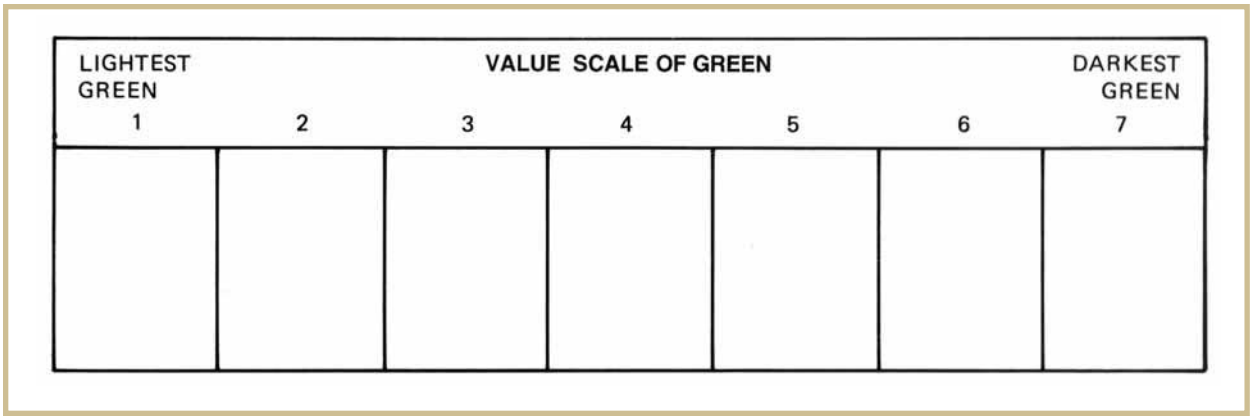
Don't worry if your painting isn't perfect. The purpose of these exercises is to make you more sensitive to color and to help you understand and remember color relationships and characteristics. Have fun with them.



Blank Color Circle



Value Scale of Neutral Gray



Value Scale of Green
